TO: All Clark County ALS Providers

FR: Lynn Wittwer, MD, MPD  
Clark County EMS

RE: Guidelines for Paramedic Recertification

The following will be the requirements for recertification for following the PCEP program:

**Lecture series:**

8 total: February, March, May, June, July, September, November, and December.

- Compliance will be 50% (4) mandatory attendance, 2 can be done via CVTV or Go To Training and will be counted as live attendance. Up to 6 per year can be done via CVTV/Go To Training.
- Video/Ninth Brain viewing will be completed by the end of the calendar month following the "live" presentation.
- If the 50% attendance requirement is not met, 75% attendance (6) will be required for subsequent years. 100% attendance (8) will be required the final year if second year attendance falls below 75%.

**Skills Series: Mandatory**

January, April, August and October.

- Skills series will be offered multiple times throughout each Clark County agency. Compliance must be maintained each quarter.

If criteria for recertification via the PCEP method are not met, recertification will be done via conventional means. Please be informed that the "state test" is now the National Registry Paramedic Recertification Exam which you must pay to take. Please see the following link if you have any questions:

<http://www.doh.wa.gov/hsqa/emstrauma/download/pmcme.pdf>

Also be informed that National Registry 48 Hour Refresher certificate will not be issued unless PCEP attendance has been documented.
